February 2025

Step into the labyrinth of a futuristic factory in Believes: Awakening in the abyss! Control powerful mechas, each with unique abilities, to escape a hostile world where every robot is a potential foe. Switch between forms, solve intricate challenges, and uncover the mystery teeming with danger and discovery. Are you ready to outsmart the system and reclaim your soul?

VERSION 3.1

IMPORTANT !!!!

Anyone who downloaded and played the executable before January 20th, 2025, should note that after downloading the new version, a new game must be started, as continuing the previous save is not supported.

The web version is an introduction to the game therefore not containing all the map upgrades, download the game and enjoy the new challenges.

IMPORTANT !!!!

Due to integration issues with WebGL, the following problems may occur:

It is not possible to save the game in the web version. Occasionally, audio in the web version does not start immediately. If multiple audio tracks play simultaneously, the audio on the web version may freeze and stop entirely.

For a Better Game Experience Our Team Suggest downloading the game.
